APRIL newsletter

Hallo to you all,  
The March activities day started by welcoming several members of the Friends of Tarra Bulga N.P. and everyone enjoyed a pleasant afternoon. Following lunch we headed towards the propagation area where Ken gave A summary to the guests on the construction, the purpose of the three sections of the shed and automatic switch system for irrigation. The seedlings in boxes are at a most encouraging stage for next month treeplanting season. This reminds me that no harm is done by forewarning the member that we need as many hands as possible for our treeplanting days TBNP Friends were keen to participate in giving us a helping hand with nightshade pulling. The scientific name...SOLANUM DOUGLASII. Surprisingly there was less of the weed than two years ago when the same area between Fosters Gully path and creekbed was surveyed.

-----

The April Activity    EASTER SUNDAY    16 April  
Meeting Place        1.30 pm at end of Breniffs road

#### REMOVAL OF TREE GUARDS IN BILLYS CREEK AREA

A large number of trees planted by the Friends over the past years are Cramped in too narrow a space by the guards and need urgent removal. So why not gather together family and friends to join us.

-----

Secretary Wendy Nickson has recently left the area. Wendy has done a long stint as newsletter editor too. Both,Dave and Wendy Thank You for your hard work and dedication to the Friends Group.We are going to miss your constant presence on activity days. Happy retirement and fishing at Victoria Riviera

-----

Barn Owl, Tyto alba. Most often seen At night, flying in the light of car headlights or perched on a roadside fence post, the Barn Owl is a common resident or nomad of woodlands throughout Australia.

With space to spare I thought to enlighten you with info on The Barn Owl.

  
Cheerio from Johanna Aziz  
Newsletter editor
