## AUGUST NEWSLETTER 1997.

### JULY ACTIVITY REPORT.

On Saturday 12 July , several members and ranger fronted up at 10 am and continued working on the fence for the trial re-vegetation plot at the top of the Billy Creek part of the park. This I hear has been finished and some trees planted as well.

Thank you very much to all who have been involved. It is planned to erect two more fenced areas near the one already done, but not to the same extent of work will be involved as we will be just fencing an area near a tree. Which will hopefully provide a seed supply and trees will germinate naturally without the added competition of grazing animals. The other will be around a large branch which has fallen down and will offer even more protection than just fencing for any seedling which germinates.

Sunday 20 July 13 people attended our third tree planting session of the year, a rather wet and cold day it was with the kids not really enjoying it much but 500 trees were planted out in quick time again. The trees planted are as follows:

A. Dealbata	Silver wattle	122
A. Verniciflua	Varnish wattle	160
A. Verticillata	Prickly moses	33
E. Viminalis	Manna gum	44
E. Ovata	Swamp gum	40
E. Bridgesiana	But but gum	56
E. Obiqua	Messmate gum	14
E. Globulus	Blue gum	4
Hedycarya angustifolia	Austral mulberry	14
Olearia argophylla	Musk daisy-bush	15
TOTAL		500

All of this was carried out under the watchful eyes of a small mob of eastern gray kangaroos.

August 17 Tree planting Braniffs Road ( at the end of Branniffs Rd ) 10:00 AM .

You will need to take along with you some gardening gloves , gum boots , your lunch and a drink. You may also need to take along a hammer to knock in the stakes.

All going well we should get the work done early and then go for a walk to the weir for lunch. ( Billy tea sounds good doesn't it Rob ) While we are there at the weir some of the more energetic of us could check out the planting we did last year on the hill above the weir.
